

# Deliverable 4: Experience Section Updates & Endorsements Report

**Name:** Ankita Mukund Panpatil

**Deliverable:** Deliverable 4 – Experience Section Update & Network Feedback

## 1. Experience Section Updates & Action-Driven Descriptions

In accordance with the module guidelines, I revamped my LinkedIn experience section to emphasize impact, utilizing strong action verbs and quantifiable achievements. Key modifications include:

- **Data Analytics & Python Projects:** Replaced passive task lists with results-oriented descriptions, highlighting the development of automated scripts using Pandas, NumPy, and StatsModels that reduced data processing times.
- **Database & BI Dashboards:** Quantified achievements in designing relational MySQL schemas and optimizing Power BI DAX measures to deliver actionable business insights.
- **Apprenticeship Experience:** Clearly articulated operational contributions during my one-year apprenticeship at Indian Overseas Bank, focusing on efficiency and workflow accuracy.

## 2. Endorsements & Recommendations Request

I reached out to three professional peers and colleagues requesting skill endorsements and written recommendations. Their responses are summarized below:

| Peer / Colleague | Relationship                | Endorsed Skills & Feedback Summary                                                                                                               |
|------------------|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| Colleague A      | Data Analytics Peer         | Endorsed Python, Data Analysis, and Power BI. Noted that the updated profile descriptions capture technical depth much more effectively.         |
| Colleague B      | Banking Apprenticeship Peer | Endorsed Database Management and Operational Efficiency. Provided a strong written recommendation highlighting reliability and analytical rigor. |
| Colleague C      | Software Engineering Peer   | Endorsed Problem Solving and MySQL. Commented that the quantified bullet points make project impact immediately apparent to recruiters.          |

### 3. Reflection on Network Feedback

The feedback from my professional network confirmed that transitioning from duty-based bullet points to metric-driven, action-oriented descriptions significantly boosts profile clarity and credibility. Peers noted that the revised descriptions make my technical capabilities and professional accomplishments stand out much more clearly.
