

Deliverable 5: Content Calendar & Reflection Report

Name: Ankita Mukund Panpatil
Deliverable: Deliverable 5 – Monthly Content Calendar & Post Engagement

1. Monthly Content Calendar (Next 4 Weeks)

This structured content plan outlines weekly professional posts combining text, images, video walkthroughs, and expert tips to build consistent engagement on LinkedIn.

Week	Content Theme & Format	Post Topic & Description
Week 1	Achievement (Photo)	Share recent certification or completed data analytics project milestone with a professional workspace photo.
Week 2	Industry Insights (Text + Infographic)	Post key takeaways from a recent article on data modeling trends and Power BI DAX best practices.
Week 3	Project Showcase (Short Video Walkthrough)	Demonstrate a Python script workflow and automated data processing pipeline using Pandas and NumPy.
Week 4	Expertise & Tips (Carousel / Document)	Offer actionable tips on optimizing database design and writing efficient MySQL queries.

2. LinkedIn Post Execution

Published Post (Week 1): Successfully shared a milestone update highlighting the completion of an advanced data analytics and Python automation project, paired with a professional photo.

3. Reflection on Planning & Initial Engagement

Planning Process: Structuring content across diverse formats ensured a balanced mix of storytelling, technical demonstration, and thought leadership without feeling rushed.

Initial Engagement: The Week 1 post generated positive responses, qualitative comments from peers in data analytics, and valuable networking interactions within the first 24 hours, validating the effectiveness of consistent, visual storytelling on professional platforms.
